EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Michelle Lecointe, attorney of record, on 12/24/03.

The application has been amended as follows:

Claims 1 and 30 have been amended as follows:

In indent ii) of claims 1 and 30, delete "the" and replace with - - of - -

Allowable Subject Matter

Claims 1-4 and 30-34 are pending.

Claims 1-4 and 30-34 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest prior arts are Bartels (US 5,192,445) which teaches poly (4-vinyl pyridine) membrane cross-linked with dibromobutane, Waite (US 5,147,553) which teaches selectively permeable membrane which contain poly (4-vinyl pyridine) and epichlorohydrin, and Minchak et al (US 4,522,902) which teaches forming membranes with materials from among a large group of compounds, which include epichlorohydrin,

aniline, and vinyl pyridine. None of the cited references teach forming poly (4-vinyl pyridine) membrane on a woven support, followed by cross-linking with epichlorohydrin and aniline as in claim 1. Claims 30– 34 recite a process of electrodialysis using the membrane of claim 1, and therefore, allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
